QUALITY MAKES THE DIFFERENCE

HEIDENHAIN

## Measurement and control technology from Heidenhain

Regardless of whether you require **measurement devices** for your machine tools or **length measurement systems** – Heidenhain is your best option for challenging positioning tasks. With **over 40 years** of experience with **measurement and control technology** from Heidenhain, we can offer you a broad range of products to meet a variety of requirements in your plant. The **encoders** are available for various series **with** and **without integral bearings** and we also supply **sliders** and **sensing heads** for **length measurement systems**. A lot of our products also include comprehensive **technical information documents**, such as operating instructions and product information.

We can provide **general reconditioned repairs** as well as **new, replacement** and **exchange parts** for both **current** and **discontinued** assemblies – and always at **fixed prices**. When completing repairs we

also replace all components subject to ageing or wear as a preventive measure. We always use **original components** ensuring we can provide you with a **24-month warranty\*** on **repair** and **exchange services** as well as the **sale of replacement parts**.

For existing **HMI/IPC applications** manufactured by **Heidenhain**, we also offer **fully compatible replacement solutions** under our own **unipo®** brand.

## The advantages BVS has to offer:

- ✓ New, replacement and exchange parts as well as general reconditioned repairs for current and discontinued assemblies at fixed prices
- ✓ High product quality through use of original components
- ✓ Over 40 years of experience with Heidenhain measurement and control technology
- ✓ Provision of technical information documents for a range of Heidenhain products
- ✓ Fully compatible HMI/IPC replacement solutions under our own unipo® brand

We are available to answer your questions around the clock.
