QUALITY MAKES THE DIFFERENCE

KUKA

## Repair, exchange and replacement parts for KUKA KCP1, KCP2 & KCP4 pendants

We offer **general overhaul repairs**, as well as **exchange and replacement parts** for **KCP1, KCP2 and KCP4 pendants** manufactured by KUKA.

For each **repair** and every **KUKA pendant** that is **exchanged** or purchased as a **replacement part** from BVS, we not only replace all components that are **electronically and mechanically defective** as part of the **product overhaul**, but also replace all of the parts that are subject to **ageing** or **use-related wear**. What's more, we only use **original components** approved by the manufacturer or legislator to repair your **KUKA pendants**. We are also able to restore the full functionality of the 6D mouse.

Because of this, you receive our **24-month warranty\*** on your complete **KUKA handheld control panel**, which covers all related products and services. Instead of a purely software-based simulation, we test

all reconditioned **KUKA handheld control panels** with an **original KRC1, KRC2** and a **KRC4 KUKA robot**. This means we can comprehensively test your **KUKA handheld control panels** both in terms of their functions and also under conditions that correspond to the actual working environment.

Thanks to the excellent availability of replacement products in our extensive warehouse comprising over **100,000 assemblies** and the option of express repair services, you will receive your **KUKA pendant** as quickly as possible.

And best of all: You will save **up to 50 %** compared to the manufacturer's prices.

For existing **HMI/IPC applications** manufactured by **KUKA**, we also offer **fully compatible replacement solutions** under our own **unipo®** brand.

## The advantages BVS has to offer:

- ✓ Up to 50 % savings on the manufacturer's list price
- ✓ New, replacement and exchange parts as well as general reconditioned repairs for KUKA KCP1, KCP2 & KCP4 assemblies at fixed prices
- ✓ Use of original components
- ✓ Final test with original KUKA robots
- ✓ Fastest response times thanks to 24/7 availability and large exchange inventory
- ✓ Fully compatible HMI/IPC replacement solutions under our own unipo® brand

We are available to answer your questions around the clock.
